

Critical Information Summary

Clear nbn™ Fixed Wireless 60GB 25/5

12 Month Contract

Information About the Service

Description

The nbn™ Fixed Wireless (nbn™ FW) service is a residential grade broadband internet service delivered using nbn™ wireless equipment connected to your premises with a Peak Information Rate of **12/1Mbps** for Tier 1 and **25/5Mbps** for Tier 2.

Requirements, Availability and Limitations

The **nbn™ FW** Service is only available to those who are in an nbn™ FW area. ([Check our website](#) for coverage at your address.)

Peak speeds refer to the speed delivered to the Fixed Wireless technology installed at the customer’s premises. They are not necessarily equivalent to the speeds you will achieve in practice. Actual speeds will be affected by many external factors which include the number of end-users using the service at the same time, the hardware, software, the connection within the premises (e.g. a wireless router may not operate at the speed of your fibre connection) and the type/source of content being downloaded.

Your data usage is counted in both directions, so if you download 10GB and upload 5GB then your total is counted as 15GB. Your **Data Allowance** can be used at any time. If you exceed your Data Allowance, your Peak Information Rate will be reduced to **128/128kbps** for the remainder of your billing period. If you then continue to download data, your Peak Information Rate will be progressively reduced. There is no Excess Usage charge.

You can purchase data blocks to remove your shaping. Prices and options are available on our website. It may take up to an hour for your speed to return to normal.

Equipment Needs

You will require an nbn™ FW Radio and connection box (Network Termination device or NTD), installed for free at your premises by an nbn installer as part of its network rollout. nbn™ retains ownership of the FW equipment and will service and maintain it. You will need also need a router if you wish to use multiple devices at once on your **nbn™ FW** service. If you do not already own one, Clear Networks can sell you a suitable device at an additional cost. You are advised to choose a router from our list of hardware options.

Minimum Term

This **nbn™ Fixed Wireless** plan option features a minimum 1 month agreement. (Also available with 12, 24, 36 month minimum terms.) A 12 month or longer agreement gives access to discounted hardware and lower activation fees.

Bundling

This service is not conditional on having a phone line with us. If you choose to purchase a **ClearTalk** service, your broadband service will be discounted by \$10 a month.

Included Features

There are a range of value-added features included with **nbn™ FW**, with further details on our website;

Anytime data	5 email addresses	Data Blocks	100MB of Webspace
Static IP address	Free spam-virus filter	Equipment discounts	Free Plan Change (1 per month)

Information About Pricing

Installation Fee

Installation is free on a 12 month agreement.

Monthly Charges

The Clear nbn™ Fixed Wireless 60GB 25/5 12 Month Contract plan has a:

- Monthly Charge of \$79.95
- Unit cost of \$1.33 per 1GB of data
- Peak Speed of 25mbps down/5mbps up
- Typical evening speed of 17mbps
- Monthly Data limit of 60GB

Total Minimum Price

On a 12 month agreement the **Total Minimum Price** is \$959.40, comprising 12 months at \$79.95 per month.

Excess Usage

Both upload and download count towards your monthly included data. There are no excess usage charges, instead traffic beyond the included data quota will be slowed to **128kbps/128kbps**. You can purchase data blocks to remove your shaping. Prices and options are available on our website. It may take up to an hour for your speed to return to normal.

Notice of Cancellation

Clear requires thirty (30) days' notice of cancellation in writing, if you decide to close your account. Your service will be cancelled 30 days after we reply in writing to confirm your cancellation request.

Early Termination Charge

If you cancel your service prior to the end of your contract term you will incur early termination charges. These are calculated by multiplying the number of outstanding contract months times the minimum monthly contract charge.

Other Information

Usage Information

Customers can monitor their **nbn™ FW** usage at myclear.clearnetworks.com.au.
